

## Snack Mix Components & Culinary Ingredients

Believe in **Better**

Believe in **Better**

# Inspiring Innovations

Often imitated, but never replicated, TH Foods provides inspired solutions for any number of applications including snack mix, confection, bakery or dairy applications. We work collaboratively with our customers to deliver tasty, innovative products based on trend- and research-driven intelligence that create repeat business.

Our quick development turnaround allows you to create a new, breakthrough product and bring it to market – fast!

Maybe it's a thin Hot Cajun Corn Stick or a sweet and crunchy Honey Roast Stick with a touch of smoky maple bacon? It could be a mammoth pecan roasted, glazed and then draped in rich dark chocolate, or simply salted peanuts. Whatever it is, that new taste we create together will be what sets your product apart from the rest.

Be inspired. Create your next snack sensation with innovations from TH Foods.

## Believe in **Better**

Better taste. Better flavor. Better texture. Our culinary experts are busy cooking up ways to bring unique flavors and textures to make your next product even better.

Improve mouthfeel of a low-fat, protein-enriched product with our nut meal. Add a decadent crunch to a seafood dish with a pineapple macadamia nut coating. Enhance an on-the-go snack with a coconut cashew.

Create better with TH Foods.

## Custom Solutions & Innovation – Our R&D is Your R&D

We are a leader in designing new tastes and textures that will not only enhance your product, but really help it stand out. In other words, we make it better.

We work as an extension of your team – your personal R&D department.

Want to target a particular audience with a new product launch? We'll incorporate knowledge gained from our proprietary research to create a new bold flavor fusion of sweet and heat that we know millennials desire.

Each new challenge inspires innovations, and those innovations create repeat customers.

## Food Quality & Safety

Food quality and safety is our top priority. It starts with our critical selection of strategic partners to source only the finest raw ingredients. And, it continues throughout our process with ongoing employee training, frequent internal and 3rd party audits and maintaining the highest quality certifications.

- SQF Level 3 Edition 8 certified
- GMP program
- Full HACCP plan
- Certified gluten-free by GFCO\*
- Certified organic by QAI\*
- In-house gluten testing lab
- Peanut-Free facilities\*

*\*Three out of four plants are peanut-free and organic, and two plants are certified gluten-free.*

# Better Taste. Better Texture. Better Quality.

## Sesame

### Wide or Narrow Sticks, Chips & Bits

As the leading manufacturer of high quality sesame sticks in North America, we offer a wide variety of shapes, sizes and flavors. Made with real toasted sesame seeds, customers love our signature flavor and crunch.

## Honey Roast

### Wide or Narrow Sticks & Chips

Our honey roasted items start with our high quality sesame base. Then, we add some sweet honey glaze to create a flavorful crunch.

## Corn

### Sticks, Chips, Bites, Jacks & Churritos

From our best-selling Cajun sticks to our completely on-trend corn chips with flax – there are endless varieties of our corn-based snack mix components to choose from. And, several of our items can be gluten-free.

## Specialty

### Sticks, Bits, Minis & Chips

Our specialty bulk items are packed full of value-added offerings:

- Custom formulations
- Ancient grains
- Vegetable-based
- Gluten-free
- Organic
- Non-GMO

# It's What Keeps Customers Coming Back For More!

## Premium Nuts

### Raw, Roasted, Whole, Chopped, Pieced & More

Choose from a variety of premium quality nuts for any number of your product applications. Our dedication to quality ensures we deliver a finished product that consistently meets and often exceeds consumers' expectations. Try some. You'll see how our products are better than the rest.

## Dried Fruits

### Whole & Diced

Whole or diced – our fruits make an excellent addition to a variety of product applications. We offer a wide array of dried fruit made possible through strategic partnerships with some of the best fruit growers around the world.

## Decadent Confections

### Panned, Dusted or Layered

You dream it, we can do it. We can pan and coat any grade of nuts and dried fruits in chocolate, yogurt and compound coatings. Try a double dipped confection for an extra layer of flavor.

Believe in Better

# Better Ingredients, Better Products

Our snack mix components and culinary-inspired ingredients are great on their own, but they can add that **extra something** to a variety of product applications, too.

# Processing Capabilities

Believe in **Better**

**Roasting** We slow roast and evenly coat each batch to perfection, adding a desired toasted flavor and texture to any nut.

**Dicing** Any of our nuts or dried fruits can be custom cut to your specific size requirements.

**Panning** Envelop your ingredients with premium dark, milk or white chocolate, yogurt, compounds, unique flavors and even colors.

**Coatings** Boost your flavor profile with any variety of seasonings from sweet to savory or heat. Add delicious flavor and texture with our praline or honey roasting.

**Mixing** We hand blend many of our mixes to ensure blend accuracy and minimize the number of broken ingredients.

**Extrusion** Our proprietary process enables us to make the best tasting sesame, corn and specialty mix components.

**Baking/Popping** Our proprietary Japanese process for baking and popping allows us to create thin, light and crispy crackers with a satisfying crunch in every bite. TH Foods is the only “Usuyaki” style rice cracker manufacturer in North America.
